Professional Summary

A 19-year-old Electronics and Communication Engineering undergraduate with a strong foundation in embedded systems, AI applications, and cloud infrastructure. Demonstrates core electronics expertise paired with a specialized focus on clean technology and emerging AI, with hands-on experience building and shipping products across hardware and software. With diverse leadership experience in student organizations and early-stage professional environments, brings a proactive, zero-to-one mindset that extends naturally beyond engineering into product thinking, go-to-market strategy, and customer-facing communication. Thrives in fast-moving, growth-oriented teams where technical depth and business intuition are equally valued.

Education

B.Tech in Electrical, Electronics and Communications Engineering Present
SRM University, Chennai, Tamil Nadu (CGPA: 9.51)

CBSE: Science Jun. 2024
Bhagwan Mahavir International School, Surat, Gujarat

International Baccalaureate: Primary, Middle and High School Jun. 2022
Fountainhead School, Surat, Gujarat
